Tobacco and Cigars,

Fishing Tackle at Lowest Rates.

California Fruit a Specialty.

Job Sternberg's Opposite the Depot.

A NEW INDUSTRY.

Something of the Mono Marble Quarry.

W. E. Lindsey, of Reno, was in the city yesterday. He is the owner of the Mono County Marble Mine fifty miles south-west of this city, in Antelope Valley, near Riekey's ranch.

THE MINE QUARRY.

The ledge is 440 feet wide and has been located with claims for two and a half miles. These locations have all been purchased by Mr. Lindsey except one which belongs to Fred Hardy.

The marble embraces fourteen varieties of color, in all. The pure white ledge is thirty feet wide and the stone is of extraordinary purity.

Mr. Lindsey said: "I consider it superior to Italian marble in this respect, it is absolutely pure and being much harder is susceptible of much finer work. You can work to a finer edge, without chipping. I can lay 10 tons of marble down here with ten horses. I have sent up two wheels to be run by water power in Mr. Riekey's ditch, and have also sent sixteen saws. The saws will be in operation a mile and a half from the quarry, and when sawed in the proper sizes will be teamed down to this city."

THE CALIFORNIA TRADE.

"The Italians of San Francisco control the marble trade of California. They sell from \$6 to \$14 per cubic foot and get it from Italy by sea for \$19 a ton. The stone is sometimes used for ballast. I cannot sell this marble in San Francisco as the Italians control everything. I can sell it in the interior however at good prices, and make plenty of money at even lower prices than they sell."

THE COLORED MARBLES.

Mr. Lindsey showed the writer several varieties of colored marbles. Black, mountain black, blue, dark blue, light blue, and sky blue, purple, green, gray and white, and various shades of intermediate colors. The ledges lie along side of each other, each ledge a separate color, from 14 to 30 feet thick. These ledges are separated by a green brittle seam from 6 to 12 inches thick. The marble is all very hard, and for a while, will require diamond drills to work quickly. A few days ago a blast threw out a slab 14 feet long and 19 inches thick. This shows the direct grain of the stone.

ONYX AND DOLOMITE.

On the East side is an onyx ledge. The onyx is dark in shade with pale dove shades and white lines coursing through it, making an exquisite combination. Onyx is used for the tops of stands and bureaus and expensive parlor furniture. The Mono onyx is far superior to the Mexican onyx which for years has been a staple article on this Coast. There is also a dolomite ledge exactly similar to the Inyo stone.

A DESIRABLE QUALITY.

"The Italian marble," continued Mr. Lindsey, "is adapted to the warm climate of Italy and will not stand the cold in this country. In yon cemetery is a fine marble shaft cracked all through with the cold. Marble contains a certain percentage of water, which we call sap, and this dries out just as sap dries out of lumber. This sap does not readily leave the Italian stone and a cold night will crack the marble. Here is a piece which has laid for years out on the ground and the weather has not affected it in the slightest; nor even stained it."

"A wholesale yard would pay in this city, as it is the nearest railroad point to the mine. There is enough stone in the mine to keep a railroad busy shipping it for a hundred years. I do not know how deep the ledge is, but a canyon that has cut through one end shows a depth of one thousand feet. It is practically inexhaustible."

Picking Up.

Real estate is picking up here—Carson Appeal.

It seems to be picking up all over the country, but so far as can be ascertained the wind has done all the "picking up."—Gazette.

According to the above the Reno boom is all wine.

Tahoe's New Paper.

H. A. Mason, of the Truckee Republican, was in the city yesterday. Mr. Mason will publish a paper this season for the Sierra Summer resorts. It will be quite a large paper and boom Lake Tahoe to the world.

PACIFIC COAST ITEMS.

—Grape growers are complaining of damages by quail.

—A young married man named Dave Cushman, recently from Oregon, killed himself at Yreka, Wednesday.

—The steamer Modoc, bound for Sacramento, ran into the wharf at Collinsville Wednesday and killed a book agent by the name of Winston of San Francisco.

—Alonzo A. Webb, a member of the United States, Prison Reform Association, is on his way to Alaska to inspect and report on the adaptability of that country for a penal colony.

—An old man named Hall, sixty years of age, has been arrested for shooting the Dane, Hansen, last week, in order to secure his land claim. The shooting occurred about twenty-five miles below Monterey.

—George Greeninger, a Swede aged 70, recently discharged from the Santa Clara County Infirmary for refusal to perform light work in the dining-room, opened the arteries of both wrists and bled to death.

—Wednesday was the seventh anniversary of the death of the Mussel Slough settlers, and it was celebrated by decorating their graves with flowers and by the annual picnic at Hartford Park, where addresses were made by local dealers.

—The misery and destitution of Nanaimo is said to be appalling. The victims of the disaster left forty-eight widows and 126 orphans. Most of these have no means of support whatever, and for a while will be entirely dependent upon charity.

Janish.

Janish, the famous Austrian actress, will play Princess Andrea here on Tuesday. She is endorsed by two great actresses. The New York Dramatic News has the following:

Janish, Nym Crinkle says, has skipped out as suddenly and mysteriously as she came. During her short stay in New York scarcely anybody saw her, except Sarony and Christine Nilsson. Both Christine Nilsson and Modjeska avowed the most extraordinary admiration for her as an artist. I asked Modjeska what Janish had ever done. She drew herself up like a Corinthian column with a capitol of Greek immortelles. "She has won the position at the very top of the profession in Germany," she said. "What Bernhardt is in Paris, Janish is in Austria, with the added advantage of beauty." I suggested to Peyser to secure Modjeska as an advance agent, but he only quietly remarked: "Oh, I'd have to hire Christine Nilsson also." And so he would. I never heard two women go on so about an artist.

We Back the Battery.

Wednesday the statue of Garfield was unveiled, and the dispatches state that General Kiefer was preparing to deliver an address of an hour and a half in length. It was proposed to cut him short by firing salutes at 2 o'clock, thereby limiting his address to 20 minutes.

This is an excellent idea, and a battery, when in line belching its compliments to a speaker is doing good work. No one likes to stand an hour and a half and listen to a talker who seizes the opportunity to be prominent while he bores five thousand people. Nothing but a battery of field guns will cut these long-winded speakers off, and when these tactics are resorted to, the audience ought to be glad to pay for the powder.

Wool-Scouring Mills at Reno.

M. D. Foley, of Eureka, and Bradley & Russell, of Elko, have purchased the old English mill and ditch property in Washoe county for \$65,000. The purchasers propose to start a wool-scouring establishment in Reno. Senator Foley and Mr. Bradley went up on yesterday's train. Mr. Foley said that he believed that this State raised enough wool to warrant such an enterprise, and the profits of the industry could be kept at home.

Rapture Cured.

Attention is called to the advertisement of Dr. Porterfield in this issue. The Dr. went back to Sacramento last evening, having treated a large number of cases here to the entire satisfaction of those who came for treatment.

—Blaine will positively go to Europe on June 8th.

ALL SORTS.

—Wizard Oil at Geo. Thaxter's.

—Spring lamb at Dies' market.

—Sweeney will have some fine races on Decoration Day.

—The question now is, who runs the Treadway Picnic grounds?

—W. B. Gross the advance agent of Janish was in the city yesterday.

—The Reno Asylum Investigation will not be fairly under way until Monday.

—Hawthorne will soon have 100,000 gallons of water per day from Little Squaw Canyon.

—Every man in the Enterprise office is buying Lottery tickets, from the editor down.

—A gentleman in this city has struck a new plan of getting rid of bill collectors. He pays 'em.

—The frosts in California have hit the grape vines hard. Now Florida can get back with interest.

—The Sacramento Bee speaks of Senator Stewart as the "recognized leader of the silver men in the Senate."

—A man named Wm. Davidson was burned to death in a cabin in Truckee while drunk on Tuesday night.

—A flat car and the trucks went up the grade yesterday to Glenbrook. It was drawn up by horse power.

—The proprietors of the Haywood mine propose to build a mill of their own and run it with the Comstock water.

DIED.—In West Newbury, Mass. May 12, 1887, at the age of 87 years, Mr. Samuel Silvester, father of Mrs. Judge Leonard.

—A good many people are asking when that report of the Pioneer Banquet will be out. The State Printer hasn't received a line of it yet.

—Brokers who monkey with stock shorting when the stocks are some other fellow's, are notified not to do it about this time.

—John Piper proposes to supply Carson with a new drop curtain as the weather is making sad havoc with the Venetian scenery.

—It seems to be a fact that the Chinese in New York City have been organized into Knights of Labor Assemblies and are accepted by the Order.

—The Superintendent of the Stockton Insane Asylum is fitting up twelve new cells in the institution.—Mail.

They are probably for the jurors in the Chronicle Bulletin suit.

The Ormsby Fair.

The citizens of Ormsby are taking great interest in the arrangements that are being made for holding a fair in that county. Such movements are always productive of good results. The first display may not be just what they would like to have it, but such things always improve. They have the effect of generating a lively competition in the effort to capture a prize and this spirit of rivalry produces good. A good fair is always one of the best advertisers in the world. Make as good a showing as you can neighbor, not only at your home exhibition, but also at the State Fair to be held here next September.—Gazette.

Sensational Vitriol Throwing.

Los Angeles is quite excited over a case of vitriol throwing. A Mrs. Roselle threw a tumbler full of vitriol into the face of Charles Petrie, an engineer who used to reside in Virginia City. She claims that he was trying to outrage her and she seized a tumbler of vitriol from the bureau to defend herself.

He claims that she called him to her room and threw the vitriol in his face. Mrs. Roselle has been arrested and her husband says that he purchased the vitriol and directed her to throw it. The young man's face is horribly burned and he will lose his eyesight.

The Camp Fire.

The Annual Camp Fire of the G. A. R. and W. R. C. was well attended last evening. The citizens of Carson made a grand rally for the Boys in Blue, and were treated to a delightful entertainment. The programme was very pleasantly rendered throughout, and elicited hearty rounds of applause. The dancing was kept up until a late hour and everybody went home with the pleasantest memories of the evening's entertainment.

The blazing camp fire on the stage showed to good effect.

Can it be Possible?

We Say Yes!

If You Don't Believe it, Come and Convince Yourself.

—WE HAVE—
450 SPRING AND SUMMER SUITS.

250 DRESS SUITS.
